## Railway Reservation

The purpose of this source is to describe the railway reservation which provides the train timing details, reservation, billing and cancellation on various types of reservation.

The system will be used by 2 types of users.  
Admin and customers.

\* Admin: These are the people who add, updates, delete train databases records. They even can modify the available data and make it available to users in reasonable time.

Any delays in the trains are being updated with admin's account. They play most important role for any updation in the data.

\* Customers:

These are the people who check for availability of seats in train, search train from train number or train name, check status of the reservation i.e., CNF, Waiting or RAF.

He/She can even book tickets with different modes of payments i.e. UPI, credit card, debit card. He can even get refund after cancelling ticket within suitable cancellation time.
